This placement may include a prerelease component, day reporting, and home confinement (with or without electronic monitoring, but not to include GPS) at the directions of the CCM and USPO. You shall abide by the rules and requirements of the facility. You shall remain at the facility until discharged by the Court.

**CAUSE**

On May 22, 2007, the undersigned officer was contacted by Ron Cunningham, case manager at Geiger Corrections Center. Mr. Cunningham stated the above-mentioned offender submitted a urine sample on May 17, 2007, which tested positive for hydrocodone. On May 24, 2007, Charlena Holt was summoned to the U.S. Probation Office to address the apparent violation of supervised release supervision. The offender acknowledged accepting a hydrocodone pill while in the community on the date in question. Charlena Holt signed an admission of drug use form acknowledging hydrocodone consumption on or about May 17, 2007.

As an intermediate sanction, Charlena Holt was verbally reprimanded and directed to abstain from the use of any controlled substance while under supervision. Additionally, the offender was approached about participating in the STEP program as a means to provide more intensive support during supervision. It is anticipated that Ms. Holt will be granted an opportunity to participate in the STEP program while at Geiger Corrections Center. It is expected that she will continue to avail herself for counseling purposes and urinalysis testing as directed.

The Court may recall, the offender was expected to complete a 180-day RRC period at Geiger Corrections Center on May 29, 2007. As a result of the reported violation behavior, Charlena Holt signed the attached waiver of hearing agreeing to participate in the residential reentry program for an extended period up to 90 days.
